# FAQs about Bioheat<sup>®</sup> Fuel

## **Q: What is Bioheat<sup>®</sup> fuel?**

**A:** Bioheat<sup>®</sup> fuel is an eco-friendly fuel, created by blending ultra-low sulfur fuels with biodiesel. Biodiesel is made of agricultural by-products, such as soybean oil.

## **Q: Why is Bioheat<sup>®</sup> fuel better than heating oil?**

**A:** Bioheat<sup>®</sup> fuel is better for...

- **The environment:** Bioheat<sup>®</sup> fuel is made from renewable by-products and produces fewer emissions.
- **Your equipment:** Bioheat<sup>®</sup> fuel is compatible with existing heating systems, helping them run better.
- **The community:** Bioheat<sup>®</sup> fuel is delivered by local, family-run businesses, like your heating fuel company.

## **Q: Will Bioheat<sup>®</sup> fuel cost me more?**

**A:** Unlike other renewable energy options, Bioheat<sup>®</sup> fuel requires no expensive conversions. The use of Bioheat<sup>®</sup> fuel in your home heating system supports our community's carbon-free initiative.
