The Buzz about Bioheat® Fuel

Q: What is Bioheat® fuel?

A: Bioheat® fuel is an eco-friendly fuel, created by blending ultra-low sulfur fuels with biodiesel. Biodiesel is made of agricultural by-products, such as soybean oil.

Q: Why is Bioheat® fuel better than heating oil?

A: Bioheat® fuel is better for...

- **The environment:** Bioheat® fuel is made from renewable by-products and produces fewer emissions.
- **Your equipment:** Bioheat® fuel is compatible with existing heating systems, helping them run better.
- **The community:** Bioheat® fuel is delivered by local, family-run businesses, like your heating fuel company.

Q: Will Bioheat® fuel cost me more?

A: Unlike other renewable energy options, Bioheat® fuel requires no expensive conversions. The use of Bioheat® fuel in your home heating system supports our community's carbon-free initiative.
