ABOUT YOUR FUEL

AVAILABLE NOW  
**IN PA**

Bioheat® fuel is a blend of ultra-low sulfur heating fuel and renewable biodiesel. The biodiesel in Bioheat® fuel is made from a variety of renewable agricultural by-products that are sourced from farms here in PA. These by-products include:

- ✓ Soybean oil
- ✓ Used cooking oil
- ✓ Inedible corn oil
- ✓ Fats & tallows
- ✓ Canola oil
- ✓ And other recycled oils

Feel good about your fuel choice with Bioheat® fuel, an affordable and abundant low-carbon energy solution.
